

Corey Kogan

REACT JS DEVELOPER

coreykogan@gmail.com • 856-994-2127 • github.com/kogan007 • <https://www.linkedin.com/in/corey-kogan-5159261b5>

I'm passionate about building responsive and accessible web applications using the latest technologies in the web industry. I hope to use my skills in contributing to a better and more accessible web for everyone.

EXPERIENCE

Full Stack Web Developer at MakDigitalDesign

Philadelphia, PA • Jun 2019 - Present

I worked as a full stack web developer, creating ecommerce storefronts on Bigcommerce through stencil, as well as headless full-stack applications through frameworks like Gatsby.js, NextJS, and Remix.run.

PROJECTS

Byourbed Created a headless website on remix.run for a multi million dollar brand.

PROJECTS

Byourbed Created a headless website on remix.run for a multi million dollar brand.

CoolFrames Created a headless website with a bigcommerce backend powered by remix.run, redis, and postgresql.

Phastek Performance Worked on custom react components for picking car make and model, as well as a custom react side cart.

GlowbackLED Worked on creating a custom stencil bigcommerce theme, and created custom react components, including a custom category page with filtering and different views.

Springbok Puzzles Built a headless react website on gatsby.js with a backend powered by Bigcommerce and hosted on AWS.
